

TASK (Deadline 72 hrs)

Simple PDF uploader & Viewer

Main Task :

1. A Next JS / React Web App to let an admin account upload PDFs to some Block Storage (AWS S3) . You can use the DB of your choice.
2. A Landing page showing all the uploaded pdfs.
3. A PDF Viewer screen showing uploaded PDF. (you can use React PDF)

Bonus :

1. Add Category Field during upload and show categories on NavBar
2. Compression of PDF before upload.
3. Google Auth instead of Email/Password Login.
4. Typescript.
5. A deployed URL.

NOTE: Write clean Code, Follow DRY (Don't Repeat Yourself) , Think simple and innovative.
